## We Tried 20-Plus Non-Alcoholic Beers to Find the Best in Every Style

### Flavored Dark Beer: Bravus Peanut Butter Dark

Dark beers that mimic stouts and porters tend to have a harder time matching their traditional counterparts. Lacking in flavor is not something to worry about with Peanut Butter Dark from Bravus. It has an aroma not too far from Captain Crunch with a touch of cacao. It also matches up to the weight of a typical dark beer (or, to keep with the cereal theme, like whole milk left in the bowl after the cereal is all gone, but with some refreshing carbonation). I wouldn't mind cracking open a can for breakfast now and then or pouring a glass on a colder evening, though the bigger flavors would keep me from drinking them continuously throughout the day or night.
